

THE 2ND ANNUAL ADROIT EXPO IS FRIDAY APRIL 27, 2018.

During this school wide event, we invite our entire community to share their passions! This is different from the Adroit classes, where students are learning the design thinking process. During the Expo, students will present their passion projects they have been working on for months! Students are welcome to sell items that will benefit a non-profit or have an empathetic cause. They will present in their homeroom or advance classes (listed below) during 1 of 4 sessions. Students will either present outside or in the commons of their buildings. They will also be organized by theme/subject matter. When not presenting, students will have a passport that will be used to visit others and make connections to spark new ideas. All students will check in with their teachers following each session. We will have food trucks and !YES! Officer Mendez's Band!!!! Student's will end the day with a written reflection back in their Homeroom (K-5) & Advance (6-11) classes. We invite anyone in our community to join us in sharing their passions during any one of our sessions. We would also like to invite parents/family members to help our students make real life connections by highlighting your job and profession. We invite you to share a passion, job, career or profession at the Adroit Expo! Please email josh.cochran@stargateschool.org if you would like to participate.
